Annex B to Terms and Conditions and General Information

RETIREMENT BENEFITS

Introduction

(a) In general, anyone joining pensionable public service employment on or after 1 January 2013 is a member of the Single Scheme. This Scheme applies to all military personnel who join the Permanent Defence Force (PDF) from 1 January 2013 onwards as first-time new entrants to the Public Service.

The Single Scheme also applies if you are a former pensionable public servant who re-joins the Public Service in a pensionable position on or after 1 January 2013, with a break of more than 26 weeks between public service employments.

Single Scheme – summary of main elements for PDF members

- It is a *defined benefit* scheme based on *Career-Average Earnings*.
- Retirement benefits – pension and lump sum – are primarily based on % of *pensionable earnings* throughout your public service career as a Single Scheme member.
- PDF members pay a 7.5% employee contribution from salary towards their Single Scheme benefits, as well as an *Additional Superannuation Contribution (ASC)* – see **Notes 1 and 3 below**.
- Each year, you build up money amounts on a *fast accrual* basis towards your Single Scheme retirement benefits. The total of these amounts at retirement, with some adjustments for increases in inflation, determines what your retirement benefits will be.
- Single Scheme retirement benefits are payable immediately on retirement from the PDF only if you serve to the *minimum pension age* of 50, and have the *vesting period of 2 years*¹.
- If you finish employment with the PDF before age 50 and have the vesting period, payment of your retirement benefits is normally *deferred* to age 68. (Age 68 is the qualifying age for *Contributory State Pension (CSP)* from the

¹ The *vesting period* for the Single Scheme is 2 years, the minimum length of time you must pay employee contributions into the scheme before becoming eligible for retirement benefits. The vesting period for personnel who joined the PDF between 1 April 2004 and 31 December 2012 is also 2 years.

Department of Employment Affairs and Social Protection, for anyone born since 1961).

- Retirement pension (but not lump sum) is *integrated* with the Social Insurance system – see paragraph (c) below.
- There is no cap on the length of time over which members can build pension benefits under the Single Scheme.
- Transferring retirement benefits to Single Scheme from other employments:
 - The option for a member of the Single Scheme to transfer-in benefits from private sector pension schemes is not available at present.
 - If, before joining the Single Scheme, you hold deferred retirement benefits from previous employments under a ‘pre-2013’ Public Service pension scheme, you cannot transfer those benefits to the Single Scheme. Those benefits remain to be administered under your earlier pre-2013 pension scheme.
 - If you hold deferred benefits under the Single Scheme from an earlier Single Scheme employment, you do not need to arrange for their “transfer” because it is the same Single Scheme in place across the Public Service.
- There is provision for immediate retirement benefits if compulsorily retired on medical grounds, and for death in service benefits (dependents pensions and death lump sum).
- Following retirement, increases to Single Scheme pension are linked to inflation.

(b) ‘Post-April 2004’ Defence Forces pension scheme arrangements apply to military personnel recruited to the PDF on or after 1st April 2004 and before 1st January 2013.

As indicated in Paragraph 13 above, these ‘post-April 2004’ pension schemes are relevant to anyone already serving as an NCO or Private in the PDF who joined between those dates, and is discharged and immediately re-enlisted as a Leading Seaman (line) under this competition. Those pension scheme arrangements may also apply to anyone who has worked or is working in other public service pensionable employment, and who is not a *new entrant* as defined under the Single Scheme.

Summary of main elements of 'post-April 2004' Defence Forces pension schemes:

- It is a *defined benefit final salary* scheme.
- As in other pre-2013 Public Service pension schemes generally, retirement benefits are based on *total pensionable service* and *pensionable salary* at retirement date (subject to certain limits).
- Enlisted personnel pay a 1.5% employee superannuation contribution, as well as an Additional Superannuation Contribution (ASC).
- Retirement benefits are payable immediately on retirement from the PDF only if you serve to the *minimum pension age* of 50, and have the *vesting period* of 2 years.
- If you finish employment with the PDF before age 50 and have the vesting period, your retirement benefits are *deferred*, and payable from age 60.
- Retirement pension (but not lump sum) is *integrated* with the Social Insurance system – see paragraph (c) below.
- Under the 'post-April 2004' schemes, maximum retirement benefits accrue after 30 years' pensionable service, known as *fast accrual*.
- There is an overall *40-year limit* on the total pensionable service that can be counted towards retirement pension from a person's aggregate service across membership of any 'pre-2013' Public Service Pension Scheme(s).
- Transferring retirement benefits from other pre-2013 employments: Under the Public Sector Transfer Network, reckonable service may be transferred into the PDF from elsewhere in the public sector (subject to certain conditions).²
- There is provision for immediate retirement benefits if compulsorily retired on medical grounds, and for death in service benefits (dependents pensions and death lump sum).
- Following retirement, pensions from these 'post-April 2004' schemes are revised in line with public service pension increase policy.

² For pre-2013 public service pension schemes, the Transfer Network enables the transfer of reckonable service for pension purposes between the Defence Forces and the majority of State and semi-state organisations e.g. to or from the Civil Service, Health Services, An Garda Síochána, Local Authorities, Teaching etc.

(c) Integration of retirement pension with the Social Insurance system:

New entrants to the Public Service are insurable for full PRSI. For this reason, public service retirement (or spouse's / civil partner's) pensions are subject to **integration** with the State Social Insurance system in accordance with standard Public Service arrangements. This means that a person's entitlement to the range of Social Insurance benefits (including the Contributory State Pension) is taken into account when calculating the amount of retirement pension payable.

In an integrated pension scheme, the Contributory State Pension (CSP) is regarded as part of the employee's total pension package. Under standard Public Service arrangements, this integration of retirement pension with the Social Insurance system applies from the time the retirement (or spouse's / civil partner's) pension commences payment. This means the retirement pension is adjusted (reduced) from the start by a Social Insurance State Pension *offset*, regardless of whether the person has reached Contributory State Pension age (66-68). Integration applies to retirement pension and also to employee contributions, but not to retirement lump sum.

(d) Employee pension contributions:

- **Note 1** – The 7.5% Single Scheme contribution is comprised of 4.2% of *net pensionable remuneration* (which means pensionable remuneration less twice the maximum rate of State Pension Contributory payable from time to time to a person who has no adult or child dependants) plus 3.3% of pensionable remuneration.
- **Note 2** – A contribution of 1.5% of net pensionable remuneration is payable by 'post-April 2004' enlisted personnel.
- **Note 3** – Subject to certain exemption thresholds, all Public Servants who are in pensionable employment – including members of the PDF – are also liable to pay an *Additional Superannuation Contribution* (ASC). The ASC is separate from the standard employee pension contributions mentioned above. No additional superannuation benefits are earned as a result of the ASC. The ASC applies to pensionable earnings above certain thresholds at different bands and % rates depending on the pension scheme applicable to the member. From 1 January 2020, the ASC bands / rates are as follows:

Additional Superannuation Contributions
All Public Servants who are members of the Single Public Service Pension Scheme
First €34,500 of pensionable earnings – exempt
Next €25,500 @ 3.33%
Balance @ 3.5%

(e) Declarations:

Under the *Public Service (Single Scheme and Other Provisions) Act 2012* (the 2012 Act), candidates are required to declare:

- any prior Public Service employment, or
- any pre-existing entitlements to a Public Service retirement benefit (whether already paid, in payment or deferred), or
- any existing remuneration from any other Public Service employment, or
- any such employment in which they received a payment-in-lieu of pension for that service.

(f) Pension abatement:

If a person was employed previously in the Public Service and is in receipt of a pension from the Public Service, the 2012 Act provides for the *abatement* (i.e. reduction / suspension) of any Public Service pension on re-employment within the Public Service, even where the new employment is in a different area of the Public Service. The outcome will depend on factors such as a person's ongoing overall earnings from the Public Service by way of salary plus pension.
